

MONETISATION AUDIT

THE SUMMERHAYS BROTHERS

@SUMMERHAYSBROS · 335,116 FOLLOWERS · VIRAL COMEDY SKITS

Deadpan, shock-twist comedy skits and slogan tees for an audience of 335,116 that turns up for the punchline — and is currently monetised at \$25 a shirt.

YOUR AUDIENCE IS CURRENTLY WORTH

\$251,340
to \$377,010

in unlocked revenue from a single **\$150** digital product.
Estimated, and every step of the maths is on page 03.

Right now, it is being left on the table for \$25 t-shirts.

01 · WHAT YOUR NUMBERS SAY

YOU ALREADY COMMAND MASSIVE ATTENTION.

Public profile data and your recent posts, read as a business rather than a feed. Three themes stand out, and each one points at something your audience would pay for.

PILLAR 01 · DARK HUMOUR TWISTS & SHOCK-VALUE SKITS

HIGH SALES POTENTIAL

49,912 views · context skit**612** likes**27,526** views · morgue shift skit**682** likes

Strong retention driven by sudden misdirection and sharp punchlines. This is the mechanic people would pay to learn.

PILLAR 02 · RELATABLE MEME & VISUAL CAROUSELS

MEDIUM SALES POTENTIAL

17,858 likes · low end**21,588** likes · high end

Your highest raw engagement format by a wide margin. Proof the audience shares and saves what you make — and the exact format to run your demand test in.

PILLAR 03 · YOUTUBE CHALLENGE TEASERS

MEDIUM SALES POTENTIAL

28,410 views · Undercover Cop promo**226** likes

Cross-platform pull. Your views travel with you, which matters for any launch that needs traffic from more than one place.

VERDICT

Relying on \$25 t-shirts leaves serious money on the table. A digital offer built around comedic writing and viral mechanics has a high probability of converting this attention into revenue.

02 · WHERE THE NUMBER COMES FROM

SHOW THE WORKING.

Conservative market metrics applied to your audience. No hype, just the funnel — four assumptions, stated plainly, so a sceptic can follow it and argue with any line.

335,116

OPTIMISTIC · 15%

$16,756 \times 15\% = 2,513$ buyers × \$150

\$377,010

REVENUE POTENTIAL

\$251,340 – \$377,010 waiting to be unlocked with one structured digital product. Every figure above is a stated assumption and an estimate, not a promise.

The same engaged audience of 16,756 is the denominator for every product on pages 04 and 05, including the new ebook and online course. Only the price and the assumed take-up change. The demand test on page 10 is how we replace assumptions with your own data — post it, count the replies, and the real conversion figure goes into this table before you build a single module.

03 · THE PRODUCT LADDER

FIVE RUNGS, ONE AUDIENCE.

The three paths from the audit, plus the two you asked for: a \$29 ebook at the bottom and a \$197 video-led online course above the flagship. Priced low to high, so the same 16,756 engaged people have something to buy whatever they are ready to spend. The \$150 Blueprint is still the figure on the cover.

-
- | | | | |
|----|---|-------------|---------------------|
| 01 | FUNNY ON PURPOSE | NEW · EBOOK | \$29 |
| | A 60-page handbook you can read in an evening: the five twist shapes behind your own skits, 30 written premises with the turn marked, and a pre-filming checklist. The lowest-friction way in, and the fastest thing on this list to produce. | | \$72,877 – \$97,179 |
-
- | | | | |
|----|--|-------|----------------------|
| 02 | SHORT-FORM RETENTION TOOLKIT | VAULT | \$49 |
| | A plug-and-play vault: 40+ sketch templates, audio timing cues, hook structures and fast-paced editing timelines. For creators who want frameworks rather than theory. | | \$98,539 – \$147,784 |
-
- | | | | |
|----|---|-------------|-----------------------|
| 03 | THE VIRAL COMEDY BLUEPRINT | THE BIG BET | \$150 |
| | The flagship. A step-by-step digital system covering sketch ideation, the misdirection formula, comedic timing and zero-budget production. This is the rung the cover number is built on. | | \$251,340 – \$377,010 |
-
- | | | | |
|----|---|---------------------|-----------------------|
| 04 | THE SKETCH MACHINE | NEW · ONLINE COURSE | \$197 |
| | Eight video modules that show the work instead of describing it: premise bank, shot list, flash-lit phone filming, editing rhythm, caption overlays, cross-posting to YouTube and a four-week posting sprint. The upgrade for people who have read the theory and still cannot ship weekly. | | \$231,081 – \$330,172 |
-
- | | | | |
|----|---|-------------|-----------------------|
| 05 | THE CREATOR BRAND & DEAL PLAYBOOK | HIGH TICKET | \$497 |
| | Video training on pitching comedy concepts to brands, structuring sponsor integrations and monetising views beyond apparel. A different buyer at a higher ticket. | | \$166,495 – \$249,991 |
-

Every revenue range above is an estimate. **They are not additive** — all five draw on the same engaged audience of 16,756, so a buyer counted in one row may also be counted in another. The full working for each rung is on page 05.

03 · THE LADDER, WITH THE MATHS

PRICE, TAKE-UP, BUYERS, REVENUE.

Same audience in every row. Take-up falls as the price rises, which is why the \$29 ebook converts six times better than the \$497 programme and still earns less.

PRODUCT	PRICE	TAKE-UP OF ENGAGED	BUYERS	REVENUE RANGE (EST.)
Funny On Purpose (EBOOK)	\$29	15–20%	2,513–3,351	\$72,877 – \$97,179
Short-Form Retention Toolkit	\$49	12–18%	2,011–3,016	\$98,539 – \$147,784
Viral Comedy Blueprint (COVER FIGURE)	\$150	10–15%	1,676–2,513	\$251,340 – \$377,010
The Sketch Machine (ONLINE COURSE)	\$197	7–10%	1,173–1,676	\$231,081 – \$330,172
Creator Brand & Deal Playbook	\$497	2–3%	335–503	\$166,495 – \$249,991

engaged audience **16,756** × take-up % = buyers × price = **revenue range**

SELL FIRST

The **\$150 Blueprint**. Highest revenue for one launch, and it is the offer the demand test on page 10 is written to validate.

SELL NEXT

The **\$29 ebook** as the always-on entry point once the Blueprint exists, then the **\$197 Sketch Machine** to Blueprint buyers 60–90 days later.

SELL LAST

The **\$49 vault** as a bonus or standalone, and the **\$497 Playbook** only to people who have already paid you once.

How the arithmetic was done: buyer counts are rounded to whole people and revenue is buyers × price. The Blueprint row is quoted exactly as the audit calculated it ($16,756 \times 10\text{--}15\% \times \150), which lands within \$100 of the rounded method. Take-up percentages are estimates informed by typical digital product ranges at these prices, not observed data from your account — the point of the demand test is to replace them.

WHAT'S INSIDE

- Sketch ideation: where a premise comes from when the feed is empty
- The misdirection formula — the setup, the turn, the landing
- Comedic timing for short-form: how many seconds you actually have
- Zero-budget production: phone, flash, concrete wall, done
- Your own skits pulled apart frame by frame as worked examples

WHO IT'S FOR

Aspiring comedy creators, sketch writers and short-form editors stuck at low view counts or unable to hold attention past the first three seconds.

WHY IT SELLS

It solves the root problem — scripts falling flat — by teaching the exact punchline mechanics that took one skit to 49,912 views. Nobody else can teach your formula.

THE PROMISE

Stop guessing why a sketch died. Learn the structure that makes the turn land, and rebuild any flat idea into something people finish and send on.

FIRST STEP TO BUILD IT

Sit down with the context skit and the morgue shift skit and record a 20-minute voice note explaining every decision — where the misdirection sits, why the cut lands where it does. That recording is module one, and it proves the course exists before you ever open a camera.

04 · OFFER DETAIL · RUNGS 01 AND 04

THE NEW EBOOK AND THE NEW ONLINE COURSE.

FUNNY ON PURPOSE – THE \$29 EBOOK

\$29 · EST. \$72,877 – \$97,179

16,756 engaged × 15–20% take-up = 2,513–3,351 buyers × \$29. Higher take-up than anything else on the ladder because \$29 is an impulse decision, not a considered one.

WHAT'S INSIDE

- The five twist shapes behind every skit you have posted
- 30 written premises with the turn already marked
- The three-second opener rule, in text, with examples
- A one-page checklist to run any script through before filming

WHO IT'S FOR & WHY IT SELLS

People who will never sit through eight video modules but will read something short on their phone tonight. It is the front door: cheap enough to buy on a whim, and every buyer becomes a named customer you can sell the \$150 Blueprint to later.

FIRST STEP

Transcribe the 20-minute voice note from page 06, cut it to roughly 8,000 words and typeset it black page, white slogan type like your tees. A weekend of work, no camera.

THE SKETCH MACHINE – THE \$197 ONLINE COURSE

\$197 · EST. \$231,081 – \$330,172

16,756 engaged × 7–10% take-up = 1,173–1,676 buyers × \$197. Take-up is set below the Blueprint because the price is higher and the commitment is bigger.

WHAT'S INSIDE

- Eight modules: premise bank, the turn, shot list, flash-lit phone filming, editing rhythm, caption overlays, cross-posting to YouTube, weekly calendar
- Over-the-shoulder edits of two real skits, raw footage included
- A four-week posting sprint with a template calendar
- A private thread where scripts get feedback before filming

WHO IT'S FOR & WHY IT SELLS

Creators who understand the theory and still cannot ship weekly. Once writing is solved, production is the bottleneck — and they will pay more to watch you do it than to read about it. The natural upgrade for Blueprint buyers.

FIRST STEP

Screen-record your next edit from first clip to export with commentary running. That single file is module five and doubles as the sales video.

The promise, in one line each. Ebook: know exactly why your last skit died before you film the next one.
Course: turn one idea into a week of posts without a crew. Both revenue ranges are estimates on the assumptions above, and they overlap with the other rungs rather than stacking on top of them.

04 · OFFER DETAIL · RUNGS 02 AND 05

THE VAULT AND THE HIGH TICKET.

THE SHORT-FORM RETENTION TOOLKIT

\$49 · EST. \$98,539 – \$147,784

WHAT'S INSIDE

- 40+ sketch templates ready to fill in
- Audio timing cues and hook structures
- Fast-paced editing timelines to copy

WHO IT'S FOR & WHY IT SELLS

Creators who want instant viral frameworks rather than theory. Low effort to consume, easy to price as a vault, and a clean bonus to bolt onto the ebook or the Blueprint.

FIRST STEP

Write out ten sketch skeletons you already reuse. Ten becomes forty quickly once you see the pattern.

THE CREATOR BRAND & DEAL PLAYBOOK

\$497 · EST. \$166,495 – \$249,991

WHAT'S INSIDE

- Pitching comedy concepts to brands without sanding off the edges
- Structuring high-ticket sponsor integrations
- Monetising views beyond apparel margins

WHO IT'S FOR & WHY IT SELLS

Creators with a real audience who are still being paid in merch margins and small one-off deals. This is creator business strategy, not content craft — a different buyer at a higher ticket.

FIRST STEP

Document the last three deals you were offered, what you charged and what you would charge now. That gap is the whole programme.

Prices on rungs 01, 02, 04 and 05 are recommendations, not figures from your current shop, and every revenue range is an estimate built on the same 16,756 engaged audience. Sell one at a time: the Blueprint first, the ebook as the always-on entry point, the Sketch Machine as the upgrade, the vault as a bonus, and the Playbook only to people who have already bought something.

05 · THE LAUNCH STRUCTURE

HOW WE'D LAUNCH IT.

Six phases. Each one builds the belief needed for the next. The close at the end must be real — reopening destroys credibility for the next launch.

1**BUILD UP**

Engage the community and tease that something big is coming. Interactive stories, polls, Q&A boxes and DMs touching their pain points and showing your results.

2**INVITATION**

Announce it is on the way and invite the audience into a private WhatsApp or Telegram group where the details will drop. Tease a time-limited bonus.

3**ANTICIPATION**

Build curiosity inside the group. Share the results people can achieve and make the timeline crystal clear so everyone is ready the moment doors open.

4**REVEAL**

The full breakdown: what is included, the exclusive bonus, the price and the open and close dates. Leave no doubt about what is on the table.

5**CONVERSION**

Send the enrolment link, run a poll to see who is in or has questions, and follow up one-to-one in the DMs with everyone who raises a hand. This is where most sales happen.

6**URGENCY**

Countdown messages at 24h, 12h, 6h, 2h and closed. Make them picture exactly what they lose by staying out. Then close for real.

WHY THIS ORDER

Nothing is sold until the audience has raised a hand three times: in stories, in the group and in the DMs. By the time the link goes out, the people buying have already decided.

Run this sequence for the \$150 Blueprint first. The \$29 ebook does not need a launch — it sits in the bio permanently — and the \$197 Sketch Machine runs the same six phases to your buyer list 60–90 days after the first close.

06 · VALIDATE DEMAND THIS WEEK

POST THIS BEFORE BUILDING ANYTHING.

One carousel in the format that already gets you 17,858–21,588 likes. Black background, white text. If the replies come in, the demand is real and we build. If they do not, you have spent ten minutes and lost nothing.

SLIDE 1 · THE HOOK

**YOU SPEND 3 HOURS
FILMING A COMEDY
SKIT.**

**AND IT DIES AT 200
VIEWS.**

SLIDE 2 · THE AGITATION

**IT'S NOT THAT YOUR
CONCEPT WAS BAD.
YOUR PUNCHLINE JUST
TOOK 8 SECONDS TOO
LONG TO LAND.**

**IN SHORT-FORM,
COMEDY ISN'T LUCK.
IT'S TIMING AND
STRUCTURE.**

SLIDE 3 · THE ASK

**WHAT IF YOU HAD THE
EXACT SCRIPT
TEMPLATE AND TWIST
FORMULA WE USE ON
EVERY VIRAL SKETCH?**

**REPLY 'I WANT' IF THIS
RESONATES.**

WHAT THE REPLIES TELL US

Every 'I WANT' is a named buyer before a single module exists. That reply count becomes the real conversion figure, replacing the 10–15% assumption with your own data, and those names are the first people in the launch group.

Run it on a Tuesday or Wednesday evening, keep the caption to one line, and reply to every single comment within the first hour. Screenshot the reply count at 24 hours and at 72 hours — those two numbers decide the price, the launch date and whether we lead with the \$29 ebook or the \$150 Blueprint.

07 · WHAT TO DO NEXT

READY WHEN YOU ARE.

You have the attention. The only thing missing is something to sell that costs nothing to reproduce — and there are now five ways to do it.

THIS WEEK

Post the three-slide carousel on page 10 and count the replies. No building, no filming, no spend.

NEXT WEEK

Record the 20-minute voice note breaking down the context skit. That is module one of the \$150 Blueprint and the raw text of the \$29 ebook.

WITHIN 30 DAYS

Open the launch group and run the six phases. Doors open, doors close, for real — then the \$197 course to the buyers.

THE NUMBER ON THE COVER, ONE MORE TIME

\$251,340 **TO** \$377,010

Estimated, from one \$150 product sold to 10–15% of your engaged audience of 16,756. The ebook, the vault, the online course and the high-ticket playbook are four more shots at the same audience.

Reply to this DM and I'll walk you through the numbers and what to build first.
